

## All Style Games

### *Football*

- Draw a field on the board or OHP. Have markers or magnets to track progress. Students get to choose if they want 5, 10, or 15-yard questions (5 is easy, 15 is hard). If they get it correct they advance that many yards forward. Like in sports, penalties are given for breaking rules. You can get as complicated as you want.

### *Shower Curtain Game*

- Shower curtains are cheap oversized game boards. Magnetic ones can sometimes be stuck to white boards or tacked into the walls. On the floor, pupils can throw a rolled up sock onto a question or section. If you hang the curtain pupils can throw a piece of gummy sticky stuff to select a task.
