

## Listening Games

### *Call/Response*

- This can be used in two ways. First you could have a call and response motivating cheer for times when the class was down or tired. (Example: I yelled “college” and the class yelled “in 2015”- the year they would begin university). Second, it could be used to memorize content.

### *Make a Song*

- Use the tune of a favourite song (pupils’ favourite song- not yours!!) and add words for the pupils to remember something you are teaching.
